InvestFlow User Stories and Acceptance Criteria

Deepika Kola | November 8, 2026

The following 47 records preserve the existing backlog IDs, sprint groups and estimates. They provide specific acceptance conditions and a verification basis.

IF-001 Define project charter and guardrails
Sprint 0. Epic: Discovery & setup. Owner role: Product Owner. Estimate: 2 points.

Acceptance criteria: Charter states scope, five core journeys, exclusions, delivery roles, dates, and evidence rules. No client affiliation or measured outcome is implied.

IF-002 Map stakeholders and RACI
Sprint 0. Epic: Discovery & setup. Owner role: Business Analyst. Estimate: 3 points.

Acceptance criteria: RACI covers backlog decisions, delivery coordination, design, QA, disclosure review, and go/no-go. One accountable role is specified per decision.

IF-003 Draft customer personas and jobstobedone
Sprint 0. Epic: Discovery & setup. Owner role: UX/UI Designer. Estimate: 5 points.

Acceptance criteria: Three illustrative personas each include goal, context, pain hypothesis, and job-to-be-done. Assumptions are labeled and no interview is claimed.

IF-004 Map currentstate onboarding journey
Sprint 0. Epic: Discovery & setup. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Journey documents entry, steps, friction hypotheses, emotions, and opportunities. Onboarding beyond the supplied prototype is explicitly marked proposed.

IF-005 Define UX hypotheses and baseline metrics
Sprint 0. Epic: Discovery & setup. Owner role: UX/UI Designer. Estimate: 5 points.

Acceptance criteria: Each KPI has a definition, numerator/denominator or timing rule, target, collection method, and missing-data treatment. Baseline remains hypothetical.

IF-006 Create prioritized product backlog
Sprint 0. Epic: Discovery & setup. Owner role: QA Analyst. Estimate: 2 points.

Acceptance criteria: All IF-001 to 047 IDs are unique and traceable to sprint, epic, role, estimate, priority, acceptance criterion, and verification approach.

IF-007 Set up design system and accessibility checklist
Sprint 0. Epic: Discovery & setup. Owner role: Product Owner. Estimate: 3 points.

Acceptance criteria: Checklist covers keyboard focus, labels, error messages, contrast, mobile layout, and chart alternatives. Test evidence is required before accessibility acceptance.

IF-008 Design simplified app information architecture
Sprint 1. Epic: Discover & navigate. Owner role: Business Analyst. Estimate: 2 points.

Acceptance criteria: Information architecture includes Overview, Portfolio, Watchlist, Research, and Order review. Each has a clear destination and return route.

IF-009 Draft dashboard low fidelity wireframes
Sprint 1. Epic: Discover & navigate. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Wireframe identifies balance, cash, holdings, next step, and demo disclosure. Assumptions and differences from implementation are documented.

IF-010 Create account summary card component
Sprint 1. Epic: Discover & navigate. Owner role: Product Owner. Estimate: 5 points.

Acceptance criteria: Overview shows account value, cash and invested assets with currency and as-of label. Values reconcile and are clearly labeled demo data. UAT01.

IF-011 Create accessible global navigation
Sprint 1. Epic: Discover & navigate. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Every navigation item is keyboard reachable with visible focus. Activation changes page title and active state without losing operability. UAT06.

IF-012 Prototype account and portfolio overview
Sprint 1. Epic: Discover & navigate. Owner role: UX/UI Designer. Estimate: 5 points.

Acceptance criteria: Overview-to-portfolio route works. Holdings and totals are readable, currency labeled, and demo disclosure visible. UAT01.

IF-013 Write dashboard acceptance criteria
Sprint 1. Epic: Discover & navigate. Owner role: QA Analyst. Estimate: 2 points.

Acceptance criteria: Dashboard tests cover totals, as-of label, disclosure, navigation and keyboard behavior, with expected outcomes and evidence references. UAT01/06.

IF-014 Conduct round 1 moderated usability test
Sprint 1. Epic: Discover & navigate. Owner role: Agile Project Coordinator. Estimate: 3 points.

Acceptance criteria: Test script, consent approach, task instructions and observation sheet are prepared. Results may only be recorded from actual sessions, otherwise Not Run.

IF-015 Review Sprint 1 demo and retrospective
Sprint 1. Epic: Discover & navigate. Owner role: Scrum Master. Estimate: 1 point.

Acceptance criteria: Review records demonstrated scope, unresolved gaps, feedback status, and next actions. Retrospective contains proposed improvements without fabricated attendance.

IF-016 Design investment performance visualization
Sprint 2. Epic: Portfolio clarity. Owner role: Business Analyst. Estimate: 2 points.

Acceptance criteria: Selecting 1M, 6M or 1Y changes both trend data and timeframe label, with an accessible textual equivalent. UAT02.

IF-017 Add clear gainslosses and timeframe labels
Sprint 2. Epic: Portfolio clarity. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Return amount, percent, sign and timeframe change consistently. Explanatory copy distinguishes deposits from returns. UAT02.

IF-018 Design holdings details and costbasis explainer
Sprint 2. Epic: Portfolio clarity. Owner role: Product Owner. Estimate: 5 points.

Acceptance criteria: Each holding exposes name, quantity, value and a plain-language cost-basis explanation. Absent prototype behavior is tracked as a gap.

IF-019 Prototype goaloriented portfolio insights
Sprint 2. Epic: Portfolio clarity. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Goal insight explains its assumption, source and next step. It makes no personalized investment recommendation or guaranteed-return claim.

IF-020 Design contextual education tooltips
Sprint 2. Epic: Portfolio clarity. Owner role: UX/UI Designer. Estimate: 5 points.

Acceptance criteria: Education terms have keyboard-accessible definitions that can be dismissed. Screen-reader labels convey the term and explanation.

IF-021 Validate screen reader and contrast behavior
Sprint 2. Epic: Portfolio clarity. Owner role: QA Analyst. Estimate: 2 points.

Acceptance criteria: Keyboard, screen reader and contrast checks record tool/method, screen, outcome and evidence. Any failure becomes an issue. UAT06.

IF-022 Run portfolio comprehension usability test
Sprint 2. Epic: Portfolio clarity. Owner role: Agile Project Coordinator. Estimate: 3 points.

Acceptance criteria: Comprehension protocol defines questions and scoring before testing. No comprehension percentage is reported without observed responses.

IF-023 Hold Sprint 2 review and backlog refinement
Sprint 2. Epic: Portfolio clarity. Owner role: Scrum Master. Estimate: 1 point.

Acceptance criteria: Review links portfolio evidence, open issues, revised acceptance scope and next sprint priorities. Accepted work is distinguished from proposed work.

IF-024 Define searchfilter stock discovery journey
Sprint 3. Epic: Watchlist & research. Owner role: Business Analyst. Estimate: 2 points.

Acceptance criteria: Search journey defines ticker/name matching, blank query, no results, save and return-to-watchlist behavior. Unsupported filters are identified.

IF-025 Design search states and empty results
Sprint 3. Epic: Watchlist & research. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Case-insensitive ticker/name search returns expected mock instruments. Unmatched query gives a clear recovery message. UAT03/04.

IF-026 Prototype watchlist addremove interactions
Sprint 3. Epic: Watchlist & research. Owner role: Product Owner. Estimate: 5 points.

Acceptance criteria: Saving a security adds it once, updates the count and supports removal. Empty watchlist gives a next step. Persistence is session-only. UAT03/04.

IF-027 Design research summary cards with disclosures
Sprint 3. Epic: Watchlist & research. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Research cards label instruments and information as demo data, distinguish static examples from live quotes, and provide an understandable summary.

IF-028 Add comparison and saved research notes
Sprint 3. Epic: Watchlist & research. Owner role: UX/UI Designer. Estimate: 5 points.

Acceptance criteria: Comparison and saved notes have explicit interaction and persistence rules. Missing functionality is recorded rather than accepted.

IF-029 Review data accuracy and regulatory copy
Sprint 3. Epic: Watchlist & research. Owner role: QA Analyst. Estimate: 2 points.

Acceptance criteria: All prices, holdings and calculations are consistent within each journey. Mock data and non-advisory disclosures remain visible. No real compliance approval is claimed.

IF-030 Run watchlist task completion tests
Sprint 3. Epic: Watchlist & research. Owner role: Agile Project Coordinator. Estimate: 3 points.

Acceptance criteria: Watchlist test evidence covers search, duplicate save, remove, empty state and count consistency. Unexecuted cases remain Not Run. UAT03/04.

IF-031 Hold Sprint 3 review and retrospective
Sprint 3. Epic: Watchlist & research. Owner role: Scrum Master. Estimate: 1 point.

Acceptance criteria: Review documents watchlist demo, missing comparison/notes scope, feedback status and a prioritized improvement action.

IF-032 Map orderentry decision journey
Sprint 4. Epic: Trade review & confidence. Owner role: Business Analyst. Estimate: 2 points.

Acceptance criteria: Decision journey covers security selection, quantity, estimated cost, buying power, validation, edit and explicit demo confirmation. No live trade step exists.

IF-033 Design order review and estimatedcost summary
Sprint 4. Epic: Trade review & confidence. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Changing security/quantity recalculates price and total to two decimals. Confirmation repeats selected ticker, quantity and total. UAT05/07.

IF-034 Create prominent risk and disclosure sections
Sprint 4. Epic: Trade review & confidence. Owner role: Product Owner. Estimate: 5 points.

Acceptance criteria: Disclosure states demo prices and account, no funds movement, and no live order. Risk copy is visible before confirmation. UAT05.

IF-035 Prototype editable order confirmation
Sprint 4. Epic: Trade review & confidence. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: User can edit security/quantity before confirmation. Current summary reflects edits and completion states no real order was placed. UAT05.

IF-036 Design errors loading and cancellation states

Sprint 4. Epic: Trade review & confidence. Owner role: UX/UI Designer. Estimate: 5 points.

Acceptance criteria: Invalid, zero, negative, fractional and >100 quantities are rejected. Insufficient buying power is explained. Loading/cancel scope is separately identified. UAT07.

IF-037 Review order flows with compliance stakeholder

Sprint 4. Epic: Trade review & confidence. Owner role: QA Analyst. Estimate: 2 points.

Acceptance criteria: Disclosure checklist and unresolved questions are recorded for a review role. No regulated stakeholder sign-off is fabricated.

IF-038 Run highrisk scenario usability tests

Sprint 4. Epic: Trade review & confidence. Owner role: Agile Project Coordinator. Estimate: 3 points.

Acceptance criteria: Scenario pack tests quantities 0, 1, 100, 101, fractional input, and order totals above $4,200. Evidence records actual execution only. UAT05/07.

IF-039 Hold Sprint 4 review and retrospective

Sprint 4. Epic: Trade review & confidence. Owner role: Scrum Master. Estimate: 1 point.

Acceptance criteria: Review records order-flow evidence, validation gaps and next actions. Proposed decisions are labeled simulated.

IF-040 Complete accessibility audit

Sprint 5. Epic: Accessibility, release & measurement. Owner role: Business Analyst. Estimate: 2 points.

Acceptance criteria: Audit covers keyboard, screen reader, contrast, semantics and 390px layout. Unresolved P1 defects prevent release acceptance. UAT06/08.

IF-041 Resolve critical UX findings

Sprint 5. Epic: Accessibility, release & measurement. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Each critical finding has reproduction steps, expected/actual behavior, fix reference and retest evidence. Closure requires verification.

IF-042 Run endtoend UAT scenario pack

Sprint 5. Epic: Accessibility, release & measurement. Owner role: Product Owner. Estimate: 5 points.

Acceptance criteria: UAT01 to 08 have preconditions, steps, expected outcome, actual result, severity and evidence. Missing execution remains Not Run.

IF-043 Prepare release notes and support playbook

Sprint 5. Epic: Accessibility, release & measurement. Owner role: UX/UI Designer. Estimate: 3 points.

Acceptance criteria: Release notes identify demo-only scope, known limitations, session-only data and support/reproduction steps. No production release is claimed.

IF-044 Create KPI dashboard and instrumentation plan

Sprint 5. Epic: Accessibility, release & measurement. Owner role: UX/UI Designer. Estimate: 5 points.

Acceptance criteria: Instrumentation defines events, properties, consent/privacy assumptions and KPI formulas. Dashboard distinguishes planning counts from customer outcomes.

IF-045 Simulate pilot rollout and issue triage

Sprint 5. Epic: Accessibility, release & measurement. Owner role: QA Analyst. Estimate: 2 points.

Acceptance criteria: Pilot scenario documents rollout assumptions, issue severity and escalation. Any synthetic event or dataset is labeled simulated.

IF-046 Record sponsor acceptance go/no-go decision

Sprint 5. Epic: Accessibility, release & measurement. Owner role: Agile Project Coordinator. Estimate: 3 points.

Acceptance criteria: Go/no-go record lists gates, unresolved defects, decision rationale and accountable role. Decision remains pending until evidence exists.

IF-047 Publish closure report and portfolio evidence

Sprint 5. Epic: Accessibility, release & measurement. Owner role: Scrum Master. Estimate: 1 point.

Acceptance criteria: Closure package contains actual Wrike screenshots, source files, traceability, status, limitations and interview narrative. Unfinished work is explicitly disclosed.

Review Clarifications

The baseline exposed stale confirmation, missing selected-state semantics, and focus loss after saving. The acceptance requirements remain in force and the regression evidence below records the updated behavior.

Regression Acceptance Addendum

Original story IDs	Acceptance evidence
IF-010, IF-012, IF-013	B02 verifies the dated snapshot and balance reconciliation.
IF-016, IF-017	B03 and B04 verify distinct period trends and matching endpoints.
IF-033, IF-035, IF-036	B10 verifies confirmation invalidation on both input edits.
IF-011, IF-026, IF-040, IF-041	A01 to A09 verify the defined keyboard, form, and accessibility checks.

Retests refer to the prototype. Live backlog status and release acceptance remain open.
